What they were doing only makes it harder for the rest of us to get our endorsements honestly." ?Darnel P. Dern. ?Not at all." Amos and the well-muffled sailor climbed down onto the rocks that the sun had stained red, and started toward the slope of the mountain. Once the grey man raised his glasses as he watched them go but lowered them quickly, for it was the most golden hour of the sunset then. The sun sank, and he could not see them anymore. Even so, he stood at the rail a long time till a sound in the darkness roused him from his reverie: Blmvghm! "Jake," I said..from a nightmare. You could also, for 8 few dollars more, hire a sofa or armchair that you could drive at liberty among the other chairs, choosing your partners rather than leaving them to chance. Relatively few patrons of Partyland exercised this option, since the whole point of the place was that you could just sit back and let your chair do the driving..But that night, as the rain poured over the deck, and the drum-drum-drumming of heavy drops lulled everyone on the ship to sleep, Amos hurried over the slippery boards under the dripping eaves of the wheelhouse to the second hatchway, and went down. The lamps were low, the jailor was huddled asleep in a corner on a piece of grey canvas, but Amos went immediately to the bars and looked through..Hinda ran over to him and would have bathed him with her tears, but the jangling noise called out..Amanda was still very quiet when I took the lease in to her. I offered her myself and my runabout to move her luggage from the cabletrain station. She accepted, and while we collected the luggage, including a huge trunk that almost filled the car, I did my best to be kind and amusing. Finally, she started glowing again. I left her with the key, my telephone number, and a warning that, since the cabins on either side of her for some distance were empty, she should keep her doors locked. He played them on the TV, one after the other, all through the night, waring mellower and mellower and wishing she were here. Then, in February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennments of the Apocalypse. She couldn't explain: he would have to see it himself. Song finished her report and handed the mike to Lang. Before she could start, Weinstein came on the line. "Let me guess," he said, much more calmly than he felt "The little one goes around the big one, right?" She stopped in midstride with her leg in the air. She held the position a few moments, then slowly lowered the leg and hooked her hair behind her ears while fixing me with a speculative topaz gaze. Her voice was deliberate. "Why should I be? Nothing happened, Teddy is a dear thing and Mandy's archaic sensibilities are her problem, not mine." "I have come," he said. His back was to her. "I wish to God I had not." "We've recalculated everything based on the lower mass without the twenty of you and the six tons of samples we were allowing for. By using the fuel we would have ferried down to you for takeoff, we can make a faster orbit down toward Venus. The departure date for that orbit is seven days away. We'll rendezvous with a drone capsule full of supplies we hadn't counted on." And besides, Lang thought to herself, it's much more dramatic. Plunging sunward on the chancy cometary orbit, their pantries stripped bare, heading for the fateful rendezvous . . . "And it said glumphvnr, and fuffle, and fulmp," Amos told her.
