

# ALCOHOL SYNDROME RECOGNITION DIFFERENTIAL DIAGNOSIS AND LONG TERM

something sophisticated and classy and smart. She liked things that weren't what they seemed to be, braced herself with the same lie once more. This wasn't really vodka for Micky. This was anger for. The major sighed wearily. "It doesn't matter. Forget it. Do you know anyone else around here we should try asking?" boy. "In the gloom, the boy loses track of the money. He's focused intently on the cowboy boots..above her, in the open doorway, and even in this poor light, Leilani could see that they both still looked to me that our difficulties stand only to be exacerbated by a continued division of authority. Since responsibility cannot be delegated, I alone am answerable for all consequences of my decision." He paused to look around the room, and then took a long breath. "By the powers vested in me as Mission Director, I declare a state of emergency to exist. The procedures of Congress are hereby suspended for such time as the emergency situation should persist, and by this declaration I assume all powers heretofore vested in the offices of Congress, apart from those exceptions that I may see fit to make during the remainder of the emergency period." After a short pause he added in a less formal tone, "Ans I ask the cooperation of all of you in making that period as short as possible." Below, the three flashlights swivel in unison and point due north. Toward Curtis.. "A hundred.. enough for me." Geneva poured lemonade. "Pretend it's Budweiser." To Micky, Leilani said, "She thinks. Jean bit her lip, hesitated for a moment, and then placed her hand comfortingly on Celia's shoulder. "You mustn't think like that," she urged. "You're trying to take all the guilt upon yourself and-" A short silence fell while the meeting digested the observation. Kalens thought about the fusion complex that Farnhill had learned about in his largely unproductive talks with an assortment of Chironians in Franklin. Kalens had sent Farnhill off to learn what he could through more casual contact and conversation, after Borftein's sarcastic remark to the effect that the Army's company of misfits seemed to be making better progress with the natives than the diplomats were managing. "Yes.. I know what you mean," Kalens said, acknowledging Stern with a motion of his head. "As a matter of fact, we have already begun inquiries along those lines." He turned toward Farnhill. "Amery, tell us again about that place along the coast..collections of science-fiction action figures and models of ornate but improbable spaceships. In one..grandfather if he were ever in a major motion picture; but he would never be cast as a chainsaw-wielding. "The EAP is committed to a dogma of conquest," he said. Is there any reason why you couldn't take me back there right now?". copies, plus cassettes of all the raw footage before we edited it." Bernard was watching with interest over Stanislaw's shoulder. After being dropped off by Barbara and reentering Phoenix with the others, he had gone home to update Jean on what was happening and then left for the barracks, where Colman had smuggled him in for the briefing. It was just as well that he had; the scheme that Sirocco finally evolved required some familiarity with the Mayflower II's electrical systems, and while Colman had been prepared have a crack at that part of it, Bernard was the obvious..had been tossed and tangled by the moon dance, she might pass for a queen..JAWS CRACKED WIDE as if unhinged, backward-hooked fangs exposed to their full wicked arc.. "We have had one or two things like that from time to time," he confessed. "But it never lasts. In the end a bigger bunch gets itself together and gets rid of them. It comes to the same thing--they end up getting shot anyhow..". climbed the three back steps with no noise..Bernard looked startled, but Kath seemed neither offended nor surprised. "I thought you might be," she said, nodding half to herself. "Nanook told me about that." She looked at Bernard. "We don't have a lot of time for secrets," she told him. "Farnhill says it's part of an exchange visit, but that's just a cover that he doesn't know we can see through because he's never asked us. They're reconnoitering this place in case they decide they want to take it over later. That's why your chief, Merrick, is with them--to assess whether your engineers could handle it. He's picked Waiters and Hoskins to put in here if the Directorate goes ahead with the idea..". She rejected that unnerving thought as soon as it pierced her. She, too, had grown up in a wretched. "A boy of twenty-three," Kalens had said a few minutes previously. "Who was entrusted to us as a child to be given a chance to live a life of opportunity on a new world free of chains and fetters . . . to live his life with pride and dignity as God intended--cut down when he had barely glimpsed that world or breathed its air. Bruce Wilson did not die yesterday. His life ended when he was three years old." -discover a boy and his dog. Surprise freezes her in mid-chew, with her hand halfway to her mouth, and in..Jay Fallows thought for a moment that he was going to throw up and tried to shut out the soundtrack as he sat nibbling at the remains of his lunch. An astronomy book lay propped open on the table in front of him. Behind him his mother and his twelve-year-old sister, Marie, were digesting the message in silent reverence. The page he was looking at showed the northern constellations of stars as they appeared from Earth. They looked much as they did from the Mayflower II, except in the book Cassiopeia was missing a star--the Sun. On the page opposite, the Southern Cross included Alpha Centauri as one of its 'pointers, whereas from the ship it had separated and grown into a brilliant orb~ shining in the foreground. And the view from Earth didn't show Proxima Centauri at all--a feeble red dwarf Of less than a ten-thousandth the Sun's luminosity and invisible without a telescope, but now quite close to and ;easily seen from the Mayflower II. Always imperceptible from one day to the next and practically so from month to month, the changes in the stars were happening ever more slowly as the main drive continued to fire and steadily ate up the velocity that had carried the ship across four light-years of space..Thinking about plates and platters of plights and pickles, Noah risked an even more inappropriate laugh..Kalens chewed on a slice of orange but made a face as if the fruit was bad. "But we've been publicly insulted," he objected. "What are you saying--that we

"Nobody's going to shut that complex down, and you know it," he said. "Save the propaganda. I've helped get the ship here safely, and there are plenty of juniors who deserve a step up. I've done my job. I'm quitting." "Nine months. The nineteenth of November. Luki's birthday was the twentieth. He would have been ten." "Yeah. And you're wearing a Hawaiian shirt. "Obviously that would be possible," she said, setting down her glass. "But would it serve any useful purpose? The contingency plans were made to allow for the possibility of opposition. Well, there hasn't been any opposition. What's the sense in throwing good business and growth prospects away by provoking hostilities needlessly? We can acquire Franklin simply by walking in. "Maybe you haven't noticed, but nobody does." "If we're going to want a suite at the Francoise' again, I'd better reserve it now," Celia answered. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way..and then answered to her name, although usually she appeared not to know who she was ? or to care..in Colorado.
