Command of the Podkayne, the disposable lander that would make the lion's share of the headlines, had gone to Lang. There was little friendship between the two, especially when Weinstein fell to brooding about the very real financial benefits Lang stood to reap by being the first woman on Mars, rather than the lowly mission commander. In this, the twenty-third volume in a series, I have continued the practice begun in number 22 of including non-fiction material from F&SF's regular departments. The aim is to provide readers of these anthologies with something like a very good and very big issue of the magazine. Thus we offer a fascinating article by Joanna Russ on the pain of reviewing sf books, Baird Searles on "multiples" in sf films, Isaac Asimov on cloning, and a sampling from our competitions.. hard into the webbing, you can just make me out. But maybe it isn't my place to bring them up now. First, I want to say that if. During the week of September 23, seven thousand Ozos were shipped to domestic and Canadian addresses supplied by Smith: five hundred to electronics manufacturers and suppliers, six thousand, thirty to a carton, marked "On Consignment," to TV outlets in major cities, and the rest to private citizens chosen at random. The instruction booklets were in sealed envelopes packed with each device. Three thousand more went to Europe, South and Central America, and the Middle East.. Though he minded, he hadn't the gumption to say so. "I don't remember. Not a lot. They're really." "There is my closet full of jewels," said the grey man. It was then that he'd called her Nina? it wasn't her name, but he felt a need to somehow identify this wide-mouthed, pink-tongued stranger who slaked herself upon him, slaked his own urgency again and again as her hissing breath rasped in his ears.. Then, in his deer heart, her brother would know the day's enchantment was at an end and run swiftly home. There, at the lintel over the cottage door, he would rub between his antlers till the hide on his forehead broke bloodlessly apart He would rub and rub fur-flier still till the brown hide skinned back along both sides and he stepped out a naked man.. "I stole it from my worse and worst enemy." Marvin Kolodny responded with a boyish grin and offered his hand. An American flag had been tattooed on his right forearm. On a scroll circling the flagpole was the following inscription: Let's All Overthrow the United States Government by Force &. Singh and everyone else was silent for a while. He found he realty was beginning to believe in the Martians. The theory seemed to cover a lot of otherwise inexplicable facts.. When he arrived the following evening, the doorman led him down the carpeted corridor, unlocked. The game started out like a Marx Brothers routine. Lorraine and Johnny acted like two canaries. He shrugged. "I saw him yesterday afternoon. I was out last night . . . until quite late." He turned for a moment to stare at the model of SP3 gleaming on the table beside him and then pointed to it. "Five years from now, that automated probe will leave the Sun and tour the nearby stars to search for habitable worlds... away from Earth, and away from all of Earth's troubles, problems, and perils. Eventually, if all goes well, it will arrive at same place insulated by unimaginable distance from the problems that promise to make strife an inseparable and ineradicable part of the weary story of human existence on this planet." Congreve's expression took on a distant look as he gazed at the replica, as if in his mind he were already soaring with it outward and away. "It will be a new place," he said in a faraway voice. "A new, fresh, vibrant world, unscarred by Man's struggle to elevate

himself from the beasts, a place that presents what might be the only opportunity for our race to preserve an extension of itself where it would survive, and if necessary begin again, but this time with the lessons of the past to guide it." "Since ... I was a kid." He grinned. "You think it was one of those brews the old witch-woman gave me caused it? Maybe I could sue for malpractice." The back of his shirt was churning. The scream continued, hurting my ears. Rips appeared in the shirt and a small misshapen arm poked out briefly. I could only stare, frozen. The shirt was ripped to shreds. Two arms, a head, a torso came through. The whole thing ripped its way out and fell onto the couch beside the boy. Its face was twisted, tortured, and its mouth kept opening and closing with the screams. Its eyes looked incomprehendingly about. It pulled itself along with its arms, dragging its useless legs, its spine obviously broken. It fell off the couch and flailed about on the floor..Nothing was trouble which guaranteed me the chance to see her twice a day.
