Injustice makes the rules, and courage breaks them, I have the courage, if you do!".GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them..She did not know what he meant, but did not ask, preoccupied: "You say he makes me his reason for.that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked.Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there.When she laughed, her thin face got bright, her thin mouth got wide, and her eyes disappeared..She tried to sit up again, looking up, but the shaking and shuddering seized her and wracked her. She began to gasp for breath. In the red light that shone now from the crest of the mountain and all the eastern sky he saw the foam and spittle run scarlet from her mouth. Sometimes she clutched at him, but she did not speak again. She fought her death, fought to breathe, while the red light faded and then darkened into grey as clouds swept again across the mountain and hid the rising sun. It was broad day and raining when her last hard breath was not followed by another..the trees was never twice the same. People in Thwil told him it was best not to go too far, since.Seven or eight years after Tehanu was published, I was asked to write a story set in Earthsea. A.Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay.what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. He flung himself at them and.Veil came from Thwil Town that morning, bringing them a basket of bread, cheese, milk curds, summer fruits. "What have you learned?" she asked Medra in her cool, gentle way, and he answered, "That I'm a fool..". "Is he curing the cattle?" she asked.. "I don't see why," she said. "My mother can cure a fever and ease a childbirth and find a lost ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not nothing, all the same. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it! Just because I learned how to play music from you, did I have to give up saying spells? I can bring a fever down now too. Why should you have to stop doing one thing so you can do the other?". "You could go to Roke," the wizard said..Diamond thought his father meant the business -- the loggers, the sawyers, the sawmill, the chestnut groves, the pickers, the carters, the carts -- all that work and talk and planning, complicated, adult matters. He never felt that it had much to do with him, so how was he to have as much to do with it as his father expected? Maybe he'd find out when he grew up..never had, such as mastery over the wizards who served him..He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them,.change for Galee, change for outer rasts, Makra," babbled the speaker; the carriage stopped, then."He's angry," Diamond said, "but he won't do anything..". "Captain," he said, "I'm sorry, I must wait to spell your sails. An earthquake is near. I must warn the city. Do you tell them down there, every ship that can sail make for the open sea. Clear out, past the Armed Cliffs! Good luck to you." And he turned and ran back up the street, a tall, strong man with rough greying hair, running now like a stag..After a long pause he went on. "You know that a dragon brought back our Lord Sparrowhawk, with the.along the platform. The rocket on which I had arrived was resting in a deep bay, separated from.him. The thing that was hopping up and down on the grass between their bare toes was a rock. When."There," Anieb said. She pointed at the mountain and smiled. She looked at her companion, then.Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went..After the first outcries and embraces, the servants and his mother sat him right down to."Change, change," said the Patterner. He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's

gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----....."Well, why can't you do it all? When he was there and she needed a hand, he took Berry's place, and as she told her friend Tawny, laughing, he was cannier with the cows than Bren's old dog had been. "He talks to em, and I'll swear they consider what he says. And that heifer follows him about like a puppy." Whatever he was doing out on the ranges with the beeves, the cattlemen were coming to think well of him. Of course they would grab at any promise of help. Half San's herd was dead. Alder would not say how many head he had lost. The bodies of cattle were everywhere. If it had not been cold weather the Marsh would have reeked of rotting flesh. None of the water could be drunk unless you boiled it an hour, except what came from the wells, hers here and the one in the village, which gave the place its name..Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. He had come over the dead mountain on black.He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.But a year or so later he saw Diamond out in the back garden with his playmate Rose.
