

MAKE THE ROAD BY WALKING

With age Hound had come to look his name, wrinkled, with a long nose and sad eyes. He sniffed and seemed about to say he did not know, but he knew better than to try to lie to Early. He sighed. "Otter," he said. "Him that killed old Whiteface." There are two entirely different kinds of writing in Earthsea: the True Runes and runic writing..South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano apparently on contact with air. She sat down and, touching the glass with her lips, casually asked: it thickened and darkened, creeping out over the slow waves..The early kings and queens of Enlad, among whose names are Lar Ashal, Dohun, Enashen, Timan, and Tagtar, gradually increased their sway till they proclaimed themselves rulers of Earthsea. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. The most ancient maps of Earthsea, now in the archives of the palace in Havnor, were drawn in Berila about twelve hundred years ago..Early waved his hand. Hound sniffed, nodded, and left..Day by day, as they talked in the old stableyard of Iria, where they had fallen into the habit of meeting, she asked him and he told her more, though reluctantly, always partially; he shielded his Masters, she thought, trying to defend the bright image of Roke, until one day he gave in to her insistence and spoke freely at last..He smiled again. "You're a beautiful woman," he said, but plainly, not in the flattering way he had used with her at first, before she showed him she hated it. "Why would you be a man?"..feeling horribly like despair. I was certain that the others were experiencing the same things, but..Not long since, he had sent for Hound on some business, and when it was done the old man had said to him, "Did you ever hear of Roke Island?"..story of Ged and Tenar had reached its happily-ever-after, I gave the book a subtitle: "The Last.I beg your pardon."..flames flickered between their knees, and at the bottom lay the unbroken black surface of an..foraging in the pastures of dry, frosty grass. The old man waded through the stream barefoot, holding his shoes in one hand and his tall..The Deed of Enlad, a good deal of which appears to be purely mythical, concerns the kings before Morred, and Morred's first year on the throne. The capital city of these rulers was Berila, on the island of Enlad..It cost him a great effort to speak..and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden..no mark of distinction but only a barrier to communication, to the simplest exchange of words..Tern.. "No. I don't. Rose wouldn't teach me. She said she didn't dare. Because I had power but she didn't..few years their struggles had destroyed all central governance. The Archipelago became a..Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked..reason.. "He's not too well," she said, speaking low. "He was curing the cattle away out east over the marsh, in the cold, for days on end, and wore himself out.. "Close!" Otter cried, dropping to his knees, his hands on the earth, on the raw lips of the..those of the kings..the pirates. To them no doubt it would bear some other name.. "By the beginning of autumn, Losen was hanging by a rope round his feet from a window of the New Palace, rotting, while six warlords quarreled over his kingdom, and the ships of the great fleet chased and fought one another across the Straits and the wizard-troubled sea..size and prosperity.. "No need," he said in that distant way, as if he hardly knew what she was talking about; but then he said, "You work very hard."..The trouble rose up in Irioth's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do..surface on which we stood close together began to move upward and I saw below, in the distance..She nodded..He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!..monster emptying its lungs of air, the light reappeared, the girl pushed open the door. A real..offering him something. Then she was gone..pleased with himself. When the ship was launched (and all seemed well with her, for her fault..Three children, two boys of fifteen or sixteen and a girl of twelve, were taken by one of Losen's..back to the seacoast, where Maharion's army awaited them. He woke with the vision still clear in his mind, knowing he had seen it ten years before, in the spell-locked barracks room at the mines of Samory..certainly gone and then made her way through high grass and weeds to the little house..Power.. "It's a word in the language of the Allking. His own name in his own language. In our base tongue..one, until that night..Otter had seen, with bluish eyes. Grey and black hairs curled here and

He of ancient times come stories of recent days about dragons who take human form, humans who take. It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep..a peaceful one, and ate what the Master Patterner brought her in his basket - eggs, cheese, mage-warlords of Wathort raided Roke, and killed almost all the grown men of the island. But the Starving hungry, frustrated, misunderstood, Diamond reached out to hold her again, to make her body understand his body, repeating that first, deep embrace that had held all the years of their lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and his eyes dazzled. The lightning was in Rose's eyes, and her hands sparked as she clenched them. "Never do that again," she whispered..had used with her at first, before she showed him she hated it. "Why would you be a man?" old, but that was nonsense. He was in his prime. By the time the peaches flowered, he had made a slender, sturdy deep-sea boat, built according to the style of Havnor. He called her Hopeful. Not long after that he sailed her out of Thwil Bay, taking no companion with him. "Look for me at the end of summer," he said to Ember.. "Change, change," said the Patterner. Transformation.. The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..glimmer that showed them only the next step they could take, and of how they had looked up to the..He had power to raise huge waves on the sea, and to stop the tide or bring it early; and his voice could enchant whole populations, bringing all who heard him under his control. So he turned Morred's people against him. Crying out that their king had betrayed them, the villagers of Enlad destroyed their own cities and fields; sailors sank their ships; and his soldiers, obeying the Enemy's spells, fought one another in bloody and ruinous battles..then the wife and daughters were entirely won over. "Of course," Golden said, pleased with his son's caution.
