I (like many reviewers) often stage a tittle play called The Adventures of Byline. Byline (or "I") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I?the real, historical personage?actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory..tiny gears and the pump itself. She twirled it idly as she spoke..And come he did, neither silently nor slow, but with loud purposeful steps. He stood for a moment at the clearing's edge, looking at Hinda, measuring her with his eyes. Then he laughed and crossed to her..Up above the burning city, a woman wails the blues. How she cries out, how she moans. Flames fed by tears rake fingers across the sky. It is an old, old song:."I?m continuously aware; she's only conscious when she's out.". "You noticed," she says softly. "You've got a hell of a way with understatement.". "I just don't think he could. He's such a gentle boy.".I nodded again, at the same time wondering how Amanda Gail could ever, really, consider herself alone. The acrimonious divorce of former Olympic runner Margot Randall and Senator Charles Christopher Gail had traumatically divided not only Amanda's childhood but her very psyche. Five years ago, when Margot Randall died hi a hovercraft accident and Amanda moved to Washington full-time, it emerged that for most of her childhood, Amanda Selene Gail had been two personalities, Amanda Gail and another calling herself Selene Randall. The revelation, and their decision to remain dissociated, had made them the darlings of the gossip columns..even as every other inferior species has, you must abide. . . ." I would have preferred Matt, but when I brought that up she. "Not long." "Good," said Amos. "So one third of your magic mirror has been found. Tomorrow evening I go off. And that is the end of the story.. I let myself into number seven with the master key. The drapes were closed, and so I took a chance and turned on the bathroom light. Detweiler's possessions were meager. Eight shirts, six pairs of pants, and a light jacket hung in the closet. The shirts and jacket had been altered to allow for the hump. Except for that, the closet was bare. The bathroom contained nothing out of the ordinary? just about the same as mine. The kitchen had one plastic plate, one plastic cup, one plastic glass, one plastic bowl, one small folding skillet., chuckled.. "Curses," said the grey man, "but you're right." He took from his pocket a strip of crimson cloth with orange design, went to the trunk and lowered it through a small round hole in the top. As the last of it dropped from sight, the thing in the box went: Mlpbgrm!. "I agree with Lucy," Ralston said, surprisingly. Crawford had thought he would be the only one. millions. About twenty minutes later he came down with his old suitcase and checked out. He looked fine, all over his spell." consisted of a half-meter set of eight blades that turned freely on teflon bearings. Below it were various. "Yes," said the North Wind, "there is a mirror there. A wizard so great and so old and so terrible that neither you nor I need worry about him placed it there a year and two days ago. I blew him there myself in return for a favor he did me a million years past, for it was he who made this cave for me by artful and devious magic." Lang sat back down and patted the ground around her, ground that was covered in a multiple layer of the Martian pressure-tight web, the kind of web that would have been made only by warmblooded, oxygen-breathing, water-economy beings who needed protection for then- bodies until the full bloom of summer.. These cells could serve as potential organ banks for the future. H the time were to come when an adult found he had a limping heart or fading pancreas or whatever, or if a leg had been lost in an accident or had had to be amputated, then those long-frozen cells would be defrosted and put into action.. Guilt and her pain tore at me. I chased through my head for something to comfort her. "Mandy, I?". "Anywhere," he replied. "Implicitly." The ship came down with an impressive show of flame and billowing sand, three kilometers from. against us if I try to fly it. But I? I'll do it, if we come to that. And that's your job.
