"Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new to him, words he had never said or thought before, that he thought he had spoken them in the True Speech, which he must not speak. Obsessed with tricking the girl, he had fallen into the trap he laid for her. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary language. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes. "We are four against him," said the Patterner. "I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great half-tuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence. "But why-?" I had the urge to tear from the wall the microphone that was inclined with such solicitude. "I know. I said everything wrong. I did everything wrong. I betrayed everything. The magic. And the music. And you." Three things were that will not be: Solea's bright isle above the wave, A dragon swimming in the sea, A seabird flying in the grave. It was as if she was in him, as if she was. The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero. They came out into the calm, open evening air. The west still held some brightness as they crossed. "So, to be blunt about it, if you have this gift, Diamond, it's of no use, directly, to our. him. A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate through greed, the other through foolishness. One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly

was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused, and shepherds followed their flocks over the mountain to better pastures. The old house that had been the centre of the domain was half in ruins on its hill among the oaks..for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered."But I'm not giving you anything." "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that.
