Medra knew only a hint of this story from Ember. One night Veil, who was three years older than get here?" "She can lodge in the town," the Changer said, with some relief. After a while she looked up at him. "No," she said in a soft, quiet voice. The spoken name of a True Rune may be the word it signifies in the Old Speech, or it may be one of the connotations of the rune translated into Hardic. The names of commonly used runes such as Pirr (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such well-known, often used names with caution, since they are in fact words in the Old Speech, and may influence events in unintended or unexpected ways. was seventy. "Free!" said the tall woman, and her voice cracked like a whip. Then she looked at her companions, and after a while she smiled a little. Turning back to Medra, she said, "We're prisoners, and so freedom is a thing we study. You came here through the walls of our prison. Seeking freedom, you say. But you should know that leaving Roke may be even harder than coming to it. Prison within prison, and some of it we have built ourselves." She looked at the others. "What do you say?" she asked them. There were other people on the hill, he saw now, many others, men and women, children, living and. The roasting pit took up the center of a huge domed chamber. Hurrying, sticklike figures black up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, warmth and weight of her touch that he had wasted so much time wanting. "Oh, pretty man," said one of them with a smile, "don't even show us what you have in your pack there, for I haven't a penny of copper or ivory, nor seen one for a month." "Pure?" She had no wish to explore for herself. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside". She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light. But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son. Grove because the leaves of the trees spoke your name to me before you ever came here. Irian, they. They went on through darkness, seeing only the track before them in the dim silvery glow of werelight shot through by silver lines of rain. When she stumbled he caught her arm. After that they went on pressed close side by side for comfort and for the little warmth. They walked slower, and yet slower, but they walked on. There was no sound but the sound of the rain falling from the black sky, and the little kissing squelch of their sodden feet in the mud and wet grass of the track. "You never saw a shirt? Sort of, well, clothing. Made of nylon." "Not for the same reasons as you," she said, "but I still want to. And we came all this way. And you know my name." came on your story, or something like it. That men and dragons were all one kind, but they. When he saw Diamond come down the stairs without touching the stairs, he thought his eyes had deceived him; but a few days later, he saw the child float up the stairs, just a finger gliding along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said, having by both wizardry and scholarship discovered Yevaud's true name under centuries of false. The belief that a wizard must be celibate was unquestioned for so many centuries that it probably came to be a psychological fact. Without this bias of conviction, however, it appears that the connection between magic and sexuality

may depend on the man, the magic, and the circumstances. There is no doubt that so great a mage as Morred was a husband and father..file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (8 of 111) [2/5/2004 12:33:30 AM]. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he. She looked up at him, her sharp, strong face softened by the shadowy lantern-light. "Are you there, my dear?" said the traveler. He spoke in the Old Speech, the Language of the Making. "Come along, then, Ulla," he said, and the heifer came a step or two towards him, towards her name, while he walked to meet her. He made out the big head more by touch than sight, stroking the silken dip between her eyes, scratching her forehead at the roots of the nubbin horns. "Beautiful, you are beautiful," he told her, breathing her grassy breath, leaning against her large warmth. "Will you lead me, dear Ulla? Will you lead me where I need to go?". the old man laid his hand a moment on the son's shoulder.. After a long time, Azver said, "I have no idea.".. walked for hours in silence. "Probably we can't," said the Herbal. "If the Windkey locks the winds against us ...". "Thorion was the best of us all - a brave heart, a noble mind." The Herbal spoke almost in anger. "Sparrowhawk loved him. So did we all.".. As the dim light that came into the room from chinks in the mortar of the bricked-up window died away, instead of sinking into the blank misery of all his nights in that room, he stayed awake, and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. She had looked at him.. "Never fear," Diamond said, turned on his heel, and strode out. A string of dried sage caught on his head and trailed after him.. "He does that," the cowboy said to Gift. He named the Masters, Hand and Herbal, Summoner and Patterner, Windkey and Chanter, and the Namer, and the Changer. "The Changers and the Summoner's are very perilous arts," he said. "Changing, or transformation, you maybe know of, mistress. Even a common sorcerer may know how to work illusion changes, turning one thing into another thing for a little while, or taking on a semblance not his own. Have you seen that?".
